

The background of the top half of the page is a dark blue image with vertical columns of glowing blue light and faint, illegible text, resembling a data center or server room.

DBA for SQL (f/m/d)

We are looking for a proactive and experienced database administrator with skills in data migrations, monitoring and optimization.

Requirements

- Experience as administrator of MS SQL Server / Oracle / PostgreSQL / MySQL / MariaDB
- Design, implementation and maintenance of data migration processes
- Experience with maintenance plans, Backups, Restore and Disaster Recovery Drills
- Analysis and optimization of queries, performance, indexes and execution plans
- Experience with SQL server on Azure (desired)
- Experience with Data Solutions and ETL processes
- Experience with Performance Tuning and Optimization (PTO)
- Monitoring and troubleshooting

Profile

- At least 3 years of experience
- Good written and verbal English communication skills

Our Technologies

- Microsoft SQL Server
- SQL Server Integration Services
- Datawarehouse
- Microsoft Azure

The background of the top half of the page is a dark blue field filled with vertical columns of glowing blue characters and symbols, reminiscent of the "Matrix" digital rain effect. The characters are mostly alphanumeric and some special characters, appearing to fall from the top of the frame.

DBA for SQL (f/m/d)

What you can expect

- Working as a part of stable, leading company in its sector with international customers and inspiring projects
- Being part of a dynamic and vibrant team with a flat hierarchy using the Microsoft technologies
- Reserved time for career building (10% max, some policies apply), exams fees and learning material covered
- Working where others make vacations
